LLE Safety Zone

Post: 16 March 2009
Remove: 31 March 2009

✔ The use of personal appliances at LLE is restricted per LLE Instruction 6550Q: Laboratory Safety Inspection Program. These restrictions are also covered in our new-hire orientation class, annual refreshers, and summarized below.

✔ Space heaters are prohibited.

✔ Hot plates for food preparation are prohibited.

✔ Coffee pots, microwave ovens, refrigerators, and other personal appliances are allowed only in approved public locations
  • None are allowed in offices
  • None are allowed in laboratories or within 10 feet of work areas where chemicals are stored or used

✔ Refrigerators may be used in laboratories when required for storage of chemicals, film and other lab supplies. These refrigerators must have a prominent sign on the door “Not for food storage”.

✔ Laboratory hot plates must be UL approved, temperature controlled, and used only in laboratory spaces.

✔ Please contact the Chief Safety Officer with any questions.
